

Suraj Yadav

Full-Stack Developer (React.js, Next.js, Node.js, AWS)

Mumbai, India | +91 8286683658 | surajyadav.sde@gmail.com | linkedin.com/in/surajyadavsde

PROFESSIONAL SUMMARY

Full-Stack Developer with 7+ years of experience across the entire web application lifecycle — React.js/Next.js frontends, Node.js/Express.js and PHP backends, REST API design, MongoDB/MySQL data layers, and AWS (EC2, S3, RDS) infrastructure with Nginx/SSL deployment. Built full-stack applications from scratch (Cloudesign Technology Solutions) and delivered production frontend + backend integration work at TCS and eClerx, including a ~50% reduction in development effort through reusable components. TUM-certified in Generative AI with a personal full-stack AI agent project (RAG, LangGraph, Gemini).

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & APIs: Node.js, Express.js, PHP, REST API design & integration

Databases: MongoDB, MySQL, SQL

Cloud & DevOps: AWS (EC2, S3, SES, RDS), Nginx, SSL, Git, GitHub, CI/CD

Testing: Mocha, Chai, Sinon, Unit Testing

AI / GenAI: GenAI Fundamentals, Prompt Engineering for LLMs (TUM-certified); RAG, LangGraph, Gemini LLM (hands-on project)

Security: Multi-Factor Authentication (MFA), Role-Based Access Control (RBAC)

CORE COMPETENCIES

Frontend Architecture • Component-Based Development • REST API Integration • Authentication & Authorization • Responsive Web Design • Accessibility (WCAG 2.1) • Performance Optimization • CI/CD Automation • Code Reviews • Agile Scrum • Cross-Functional Collaboration • Mentoring

WORK EXPERIENCE

Frontend Engineer — Tata Consultancy Services (TCS)

Jul 2025 – Present

- Architect and develop frontend applications from scratch using React.js and modern web technologies, establishing component and state-management patterns adopted across the team.
- Design scalable, maintainable frontend solutions aligned with business and technical requirements.
- Integrate REST APIs and backend services to support secure, seamless user experiences.
- Implement Multi-Factor Authentication (MFA) and Role-Based Access Control (RBAC) for production applications.
- Configure and maintain CI/CD pipelines automating build, deployment, and release processes; deploy on Nginx across multiple environments.
- Collaborate with Product Owners, QA, backend engineers, and stakeholders across the development lifecycle; participate in code reviews to improve quality, performance, and maintainability.
- Earned client-nominated "Star of the Month" recognition for delivery quality and ownership.

Associate Process Manager – React JS Developer — eClerx Services Ltd

Nov 2022 – Jul 2025

- Managed end-to-end SDLC — requirement analysis, estimation, development, testing, and deployment — for PayPal (global payments client) campaign applications.
- Developed and maintained React.js campaign landing pages for PayPal, replacing Pardot iframe forms with custom page-level handlers, lifting form submissions by ~30%.
- Engineered a reusable React component library, cutting development effort for future campaign implementations by ~50% and bringing 100+ dynamic webpages to a shared, maintainable pattern with full WCAG 2.1 accessibility compliance.

- Built AI-assisted automation tooling for testing and auditing workflows, reducing manual QA effort and improving delivery consistency.
- Designed and built a Chrome extension for automated webpage testing, cutting manual testing effort by ~40% — recognized internally as an Innovation Recognition.
- Mentored and onboarded 10+ engineers; recognized with eClerx's Value Award (Feb 2025) for mentoring and driving process improvements.

SDE - React JS / Full Stack Developer — Cloudesign Technology Solutions

Sep 2020 – Nov 2022

- Developed and deployed scalable web applications using React.js, JavaScript, and AWS (EC2, S3, RDS).
- Built full-stack applications from scratch while collaborating with developers, designers, and stakeholders.
- Configured Nginx servers, SSL certificates, and deployment infrastructure while mentoring junior engineers.

Software Developer — Sanda Office Management Services Ltd

Aug 2019 – Feb 2020

- Developed responsive websites and landing pages using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Built and maintained e-commerce websites using WooCommerce with secure payment gateway integrations.

Frontend Developer — Webeaters Technologies Pvt Ltd

Apr 2019 – Aug 2019

- Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL, translating Figma designs into interactive experiences.

PHP Developer — OS Infosolutions Private Limited

Jan 2018 – Apr 2019

- Developed dynamic web applications using PHP, JavaScript, HTML, CSS, and MySQL; designed email templates and integrated Amazon SES.

PROJECTS

Personal Project — RAG-Based AI Agent (Gemini LLM, LangGraph)

- Built a Retrieval-Augmented Generation (RAG) agent on personal time, using Gemini LLM and LangGraph to implement an agentic workflow with semantic memory.
- Implemented natural-language analysis of uploaded structured data (e.g., CSV datasets) as part of the agent's workflow.
- Shared as a LinkedIn technical post that reached 10,671 organic impressions and 6 comments, reflecting strong peer engagement with the approach.

Chrome Extension for Automated Webpage Testing (built at eClerx)

- Designed and built a Chrome extension to automate webpage testing, cutting manual testing effort by ~40%.
- Recognized internally with an Innovation Recognition for the tool's impact on QA efficiency.

CERTIFICATIONS

- "Skill of the Year 2025 on Generative AI" — TUM Institute for LifeLong Learning (Technical University of Munich), delivered in cooperation with eClerx Services. Munich, May 2025. Program covered GenAI principles, prompt engineering for LLMs, building applications on foundational models, data analysis with GenAI, and ethical/legal considerations.
- JavaScript Testing with Jasmine — Udemy, Aug 2025.
- Node.js Unit Testing — Udemy, Aug 2025.

EDUCATION

BSc Information Technology — Nirmala Memorial Foundation College of Commerce & Science, University of Mumbai (2014–2017)

AWARDS & RECOGNITION

Star of the Month — Tata Consultancy Services (client-nominated, for delivery quality and ownership). Value Award — eClerx Services (Feb 2025, for mentoring engineers and driving process improvements). Innovation Recognition — eClerx Services (for a self-built Chrome extension that cut manual testing effort by ~40%).
